- Cover against breakdown due to WEAR & TEAR included as standard
"Wear and tear" is the expected reduction in performance of a part due to the cars age, mileage and/or use. Many companies exclude it, others charge a premium to cover it. All our policies cover breakdown of an insured part attributed to wear and tear.
- No increase in premium for high mileage cars
Most warranty providers penalise high mileage car drivers irrespective of whether a claim is made or not by charging more for the warranty. Click4Warranty don't, instead we require a contribution toward the cost of repairs in the event of a valid claim. This is known as "The Z Scale" and means instead of paying a premium loading at the outset, there is a contribution for "betterment" in the event of a claim. Not unreasonable as the car is in better condition than it was before!
