If **YOU** find **YOURSELF** in the situation of having to carry out repairs in an emergency situation, such as when **YOUR VEHICLE** is attended to by the AA or other recovery organisation, as a result of a **BREAKDOWN** at a time when the claims office is closed, then **YOU** should:

- Retain any parts removed from **YOUR VEHICLE** for inspection
- Obtain a VAT receipt from the **REPAIRER** displaying **YOUR VEHICLES** details, the details of the repair including the cost of any **PART(s)** and labour, the time and date the repair was diagnosed and carried out.

YOU should then contact the **ADMINISTRATOR** at the earliest opportunity.

14: INSPECTION BY INDEPENDENT ENGINEER

WE reserve the right to subject the **VEHICLE** and or failed **PART(s)** to expert assessment by an independent engineer before **WE** authorises any claim. If **WE** do this, **WE** are not responsible for any loss arising from any possible delay. If a repair is started without an authorisation number the costs of the repairs will be **YOUR** responsibility and will automatically invalidate any claim under this **POLICY**.

Should an independent engineer be unable to identify the failed **PART(s)** and/or the cause of and/or reason for the failure and where **THE REPAIRER** recommends that **PART(s)** are replaced **WE** will only accept and authorise the cost of such repairs after:

- a) such repairs have been carried out; and
- b) after such repairs are proved to have been successful; and
- c) where more than one **PART** has been replaced

WE will pay up to a reasonable **REPAIRERS** retail price for **PART(s)**, up to the labour rate of the approved **REPAIRER** as stated on the Click4Warranty web site and the standard ICME (Institute of Chartered Mechanical Engineer) repair times. Please note that **YOU** will need to pay for the repair and claim the cost back from **US**.
